

Public Consultation to inform the Fitness Check of the EU Ambient Air Quality Directives (2008/50/EC, 2004/107/EC)

Fields marked with * are mandatory.

1 Introduction

This public consultation is part of the fitness check of the EU Ambient Air Quality Directives (2008/50/EC, 2004/107/EC) undertaken by the European Commission. These Directives establish criteria on how to monitor and assess air quality, require public information, set air quality standards and mandate action where these standards are not met. This consultation aims to solicit views on whether they do so in a relevant, effective, efficient, coherent manner with clear value added by EU legislation.

This consultation aims to collect views from stakeholders on:

- the level of awareness of air quality challenges in general and knowledge of the Ambient Air Quality Directives' provisions in particular;
- whether and how the Ambient Air Quality Directives have contributed to improved air quality in Europe;
- whether the provisions of the Ambient Air Quality Directives continue to be relevant, effective, efficient and coherent with other EU and national policies, as well as what their EU value-added is.

Your responses, along with those from other citizens and stakeholders, will be taken into account in the evaluation. It is therefore important that you complete this questionnaire as fully as possible. Responses can be provided in any EU official language. Some questions require more in-depth knowledge of the Directive's provisions (e.g. from question 5.1 onwards) and you are welcome to answer only some of the questions included, depending on how familiar you are with the topic.

It should take about 20 minutes to complete this questionnaire and you may pause the questionnaire at any time and continue later. Once you have submitted your answers, a copy of your completed responses can be downloaded. It will be available online for twelve weeks starting from 2018-05-08 and closing on 2018-07-31

2 Background

Air quality has improved across Europe over the past decades, as emissions of many pollutants have successfully been curbed. Nevertheless, significant compliance gaps for some key pollutants still exist – the most noteworthy exceedances being for particulate matter, nitrogen dioxide and, to some extent, the ozone target values.

This fitness check is looking at the performance of the two complementary EU Ambient Air Quality (AAQ) Directives (Directives 2008/50/EC and 2004/107/EC). These Directives set air quality standards and requirements to ensure that Member States adequately monitor and/or assess air quality on their territory, in a harmonised and comparable manner. It is also considering the corresponding Implementing Decision 2011/850/EC and Commission Directive EU/2015/1480.

The fitness check complements and builds on the extensive analysis developed as part of the 2013 air policy review (COM (2013) 918) which informed the Clean Air Programme for Europe and the revised national emission reduction targets established under Directive 2016/2284/EU.

The findings of the fitness check will be used to inform further reflections on whether the AAQ Directives are fit for purpose and continue to provide the appropriate legislative framework to ensure protection from adverse impacts on, and risks to, human health and the environment.

Your responses will be used exclusively to help the European Commission assess the EU legislation on Ambient Air Quality. Please note the specific privacy statement linked to this consultation and available on the consultation website.

3 Personal Information

Throughout this questionnaire, a red asterisk * denotes a question that requires an answer before the consultation response can be submitted.

*** 3.1 Please select the statement that best applies to you**

- You are an interested citizen or representative of an organisation with only a general interest in the Ambient Air Quality Directives
- You have specific knowledge about, and an interest in, the Ambient Air Quality Directives or Air Quality monitoring and assessment

*** 3.2 How would you prefer your consultation response to be published?**

- In full - **you consent to us publishing any information in your completed form, including your identity (your name / the name of your organisation; your e-mail will not be published)**
- Anonymously - **you consent to us publishing any information in your completed form – apart from your name / the name of your organisation and your email**

Respondents should not include personal data in documents submitted in the context of the consultation if they opt for anonymous publication. Please note: regardless of the option chosen, your contribution may be subject to a request for access to documents under Regulation 1049/2001 on

public access to European Parliament, Council and Commission documents. In such cases, the request will be assessed against the conditions set out in the Regulation and in accordance with applicable data protection rules.

3.3 Please provide your email address in case further details on the submitted information are required

utaddei@clientearth.org

*** 3.4 In what capacity are you replying to this questionnaire?**

- As an individual in a personal capacity
- As an individual in a professional capacity
- On behalf of an organisation or institution

*** 3.5 Is your organisation registered in the EU Transparency Register?**

If your organisation is not registered, you have the opportunity to [register now](#).

- Yes
- No
- I don't know

In the interests of transparency; organisations, networks, platforms or self-employed individuals engaged in activities aimed at influencing the EU decision making process have been invited to provide the public with relevant information about themselves, by registering in the Transparency Register and subscribing to its Code of Conduct.

Please note: If an organisation is not registered, its submission will be published separately from those which are. During the analysis of replies to this consultation, contributions from respondents who choose not to register will be treated as individual contributions (unless the contributors are recognised as representative stakeholders through Treaty provisions, European Social Dialogue, Art. 154-155 TFEU).

3.6 Please provide your EU Transparency Register ID number

96645517357-19

3.7 Please provide your full name

Ugo Taddei

3.8 Please provide the name of the organisation which you represent

4 General awareness of air quality issues and directives

This section of the questionnaire seeks to gather information on the general level of knowledge of air quality in Europe and its evolution over time. It seeks to gather information about knowledge of the effects of air quality on people and the environment, as well as knowledge of related EU air policy in broad terms.

This section does not require an in-depth knowledge of the ambient air quality directives.

4.1 To what extent do you agree or disagree with the following statements?

	Completely agree	Somewhat agree	Neither disagree nor agree	Somewhat disagree	Completely disagree	I don't know
I feel sufficiently informed about air quality in the area where I live	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Air quality has improved in the last decade in the area where I live	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Poor air quality is an issue of concern in Europe	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Poor air quality is an issue of concern in my country	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Poor air quality is an issue of concern where I live	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

4.2 To what extent do you agree or disagree with the following statements about poor air quality?

	Completely agree	Somewhat agree	Neither disagree nor agree	Somewhat disagree	Completely disagree	I don't know
It has a negative impact on my health or the health of those around me	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Local and/or regional-level air quality plans	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

4.4 Which level of government is the most appropriate to address air quality problems?

between 1 and 4 choices

- EU level authorities
- National level authorities
- Regional level authorities
- Local authorities
- I don't know

4.5 To what extent has EU policy and legislation on air quality helped to ...

	To a very large extent	To a large extent	Somewhat	Very little	Not at all	I don't know
... improve air quality across Europe?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
... ensure consistent rules across Europe on the maximum levels of air pollution citizens are exposed to?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
... provide for consistent rules across Europe on how to monitor air pollution levels?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
... ensure citizens are provided with comparable information on air pollution levels?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

4.6 To what extent do you agree that, without EU Policy and Legislation, air quality would be worse...

	Completely agree	Somewhat agree	Neither disagree nor agree	Somewhat disagree	Completely disagree	I don't know

5 Views on the functioning of the Ambient Air Quality (AAQ) Directives

This section of the questionnaire focuses on gathering more in-depth views about the functioning of the Ambient Air Quality Directives. The questions are structured around the 5 evaluation criteria: relevance, effectiveness, efficiency, coherence and EU value added.

In relation to **relevance**, the questions seek to establish citizen and stakeholder views on the extent to which the AAQ Directives set appropriate objectives, address the most pressing air pollutants and set meaningful air quality standards to protect human health and ecosystems in accordance with the evolving scientific understanding.

In terms of **effectiveness**, the questions seek to gather views as to the degree to which the AAQ Directives have acted as an incentive to implement effective and cost-effective measures to improve air quality, and thus reduce the adverse impacts of air pollution. They also seek to gather evidence as to the extent to which factors influencing the observed achievements in air quality can be linked to the EU intervention (the Directives).

In terms of **efficiency**, the questions seek to gather views on the benefits of improved air quality, the costs associated with implementing the provisions of the Directives, the necessary abatement measures to meet its objectives and whether there have been significant differences in costs (or benefits) between Member States and, if so, what is causing them.

In terms of **coherence**, the questionnaire seeks to gather views on the extent to which the Directives are coherent internally (i.e. within each Directive), between each other, as well as with the overarching EU air quality policy approach (including with the national emission limits via Directive 2016/2284 and emission standards established for key pollution sources), other EU legislation (e.g. on transport, energy, agriculture or nature protection) and international commitments.

In terms of **EU value added**, the questions seek to gather views on the degree to which common EU air quality standards and comparable monitoring, reporting and assessment regimes have enabled Member States to take successful action to improve beyond what would have been possible without EU action. Further, the questions seek to gather views on whether the current distribution of responsibilities between EU, Member States, regional and local levels is a useful one.

6 Relevance

In relation to **relevance**, the questions seek to establish citizen and stakeholder views on the extent to which the AAQ Directives set appropriate objectives, address the most pressing air pollutants and set meaningful air quality standards to protect human health and ecosystems in accordance with the evolving scientific understanding.

6.1 To what extent does air pollution pose a concern to public health and the environment?

	To a very large extent	To a large extent	Somewhat	Very little	Not at all	No opinion

Public Health	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Environment	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

6.2 In your opinion, to what extent are the following provisions of the Ambient Air Quality Directives important in delivering air quality improvements?

	Very important	Important	Moderately important	Of little importance	Of no importance	No opinion
Defining and establishing objectives and common EU standards for ambient air quality	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Assessing air quality on the basis of common measurement and monitoring methods and criteria	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Obtaining accurate information on air quality	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ensuring that information on air quality is made available to the public	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Maintaining air quality where it is good and improving it in other cases	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Promoting increased cooperation between Member States to reduce air pollution	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

6.3 To what extent do you agree that it is important that the Ambient Air Quality Directives address the following pollutants?

	Completely agree	Somewhat agree	Neither disagree nor agree	Somewhat disagree	Completely disagree	I don't know
Particulate matter (PM10)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Fine particulate matter (PM2.5)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Nitrogen dioxide (NO2)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Sulphur dioxide (SO2)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ozone (O3)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Carbon monoxide (CO)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Benzene (C6H6)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lead (Pb)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Arsenic (As)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cadmium (Cd)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Nickel (Ni)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Polycyclic aromatic hydrocarbons, including Benzo(a)Pyrene (BaP)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

6.4 Which pollutants currently not addressed by the Ambient Air Quality Directives would you suggest be included within their scope and why?

300 character(s) maximum

Black carbon and Ultrafine Particles should be included because of growing evidence of their negative health impacts. Ammonia (NH₃) should be included in order to better protect the environment and because it is a precursor of PM_{2.5}

6.5 What is your view on the level of the air quality standards set in the Ambient Air Quality Directives and why?

- Far too strict
- Somewhat too strict
- Appropriate level
- Somewhat too lenient
- Far too lenient
- I don't know

6.6 What is your view about the level of the ambient air quality standards set in the Ambient Air Quality Directives for the following pollutants?

	Far too strict	Somewhat too strict	Appropriate level	Somewhat too lenient	Far too lenient	I don't know
Particulate matter (PM10)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Fine particulate matter (PM2.5)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Nitrogen dioxide (NO2)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

7 Effectiveness

In terms of **effectiveness**, the questions seek to gather views as to the degree to which the AAQ Directives have acted as an incentive to implement effective and cost-effective measures to improve air quality, and thus reduce the adverse impacts of air pollution. They also seek to gather evidence as to the extent to which factors influencing the observed achievements in air quality can be linked to the EU intervention (the Directives).

7.1 To what extent have the Ambient Air Quality Directives been effective in achieving the following outputs?

	Completely agree	Somewhat agree	Neither disagree nor agree	Somewhat disagree	Completely disagree	I don't know
A representative, high quality monitoring and assessment of air quality in all Member States?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Clean air quality standards established across the European Union?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Relevant information on air quality made available across the European Union?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Coherent action taken to avoid, prevent, or reduce the effect of poor air quality?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7.2 To what extent have the following factors related to provisions of the Directives (at EU level) contributed to better air quality in your country?

	To a very large extent	To a large extent	Somewhat	Very little	Not at all	I don't know
Ambition and stringency level of the standards established in the Ambient Air Quality Directives	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cooperation between Member States as regards transboundary pollution	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Enforcement action by the Commission (including infringement procedures)	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7.3 To what extent have the following factors related to provisions of the Directives (at Member State Level) contributed to better air quality in your country?

	To a very large extent	To a large extent	Somewhat	Very little	Not at all	I don't know
Effective air quality plans and/or measures	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Short-term action plans drawn up when there is a risk of exceeding an alert threshold	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Immediate steps taken when the alert thresholds are exceeded	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Coordination at the different governance levels in a Member State	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Penalties put in place by Member States	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

7.4 To what extent have the following factors external to the Directives (at Member State level) contributed to better air quality in your country?

	To a very large extent	To a large extent	Somewhat	Very little	Not at all	I don't know
Legal authority at the different governance levels in Member States	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Access to justice via national court cases	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Availability of adequate national funding	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7.5 To what extent have the following factors external to the Directives (at EU level) contributed to better air quality in your country?

	To a very large extent	To a large extent	Somewhat	Very little	Not at all	I don't know
Adequate use of EU funding opportunities	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cooperation between the European Commission and the Member States	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Exchanges of good practices between Member States	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7.6 To what extent do you agree with the following statements?

	Completely agree	Somewhat agree	Neither disagree nor agree	Somewhat disagree	Completely disagree	I don't know
Sufficient criteria for the monitoring and assessment of air quality are defined at the EU level	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Measurement techniques are sufficiently standardised across Member States	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
There are sufficient sampling points and measurements to assess air quality	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
There are sampling points in locations and areas representative of the highest pollutant exposure experienced by the public	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
There are sampling points in locations and areas representative of the pollutant exposure experienced by the general population	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7.7 To what extent have the monitoring and reporting regimes under the Ambient Air Quality Directives helped deliver on...

	To a very large extent	To a large extent	Somewhat	Very little	Not at all	I don't know
... reliable and accurate air quality information across the EU?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
... comparable (e.g. through the use of standardised forms) air quality information across the EU?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8 Efficiency

In terms of **efficiency**, the questions seek to gather views on the benefits of improved air quality, the costs associated with implementing the provisions of the Directives, the necessary abatement measures to meet its objectives and whether there have been significant differences in costs (or benefits) between Member States and, if so, what is causing them

8.1 To what extent have the Ambient Air Quality Directives led to significant benefits as regards ...

	To a very large extent	To a large extent	Somewhat	Very little	Not at all	I don't know
... protecting human health?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
... protecting the environment?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
... reducing economic costs linked to air pollution (for example, health costs, lost working days, reduced crop yields)?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
... boosting competitiveness and innovation and / or supporting the development of new EU industrial sectors?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8.2 To what extent do you agree with the following statement?

“The following groups have benefited from the Ambient Air Quality Directive implementation:”

	Completely agree	Somewhat agree	Neither disagree nor agree	Somewhat disagree	Completely disagree	I don't know
All citizens	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8.4 In your opinion, which five sectors have benefited the most from the implementation of the Ambient Air Quality Directives?

between 1 and 5 choices

- Innovative industries (all sectors)
- SMEs (all sectors)
- Transport sector
- Transport: Personal mobility service providers
- Transport: Logistic service providers
- Manufacturing industry (incl. vehicles manufacturers)
- Energy providers
- Agriculture sector
- Waste sector
- Construction
- Mining and quarrying
- Healthcare sector
- Competent public authorities
- Other sector(s)

8.5 Within Innovative Industries (all sectors), which sub-sectors and/or specific activities have benefited the most from the implementation of the Ambient Air Quality Directives?

50 character(s) maximum

Electric vehicles, emission control technologies

8.8 Within Transport (Personal mobility service providers) Sector, which sub-sectors and/or specific activities have benefited the most from the implementation of the Ambient Air Quality Directives?

50 character(s) maximum

Car sharing, UBER, Cambio

8.16 Within the Healthcare Sector, which sub-sectors and/or specific activities have benefited the most from the implementation of the Ambient Air Quality Directives?

50 character(s) maximum

Reduced costs for chronic diseases

8.19 To what extent do you agree with the following statement?

"The Ambient Air Quality Directives have led to significant costs as regards ..."

	Completely agree	Somewhat agree	Neither disagree nor agree	Somewhat disagree	Completely disagree	I don't know
...equipment costs for monitoring and measurements of pollutants	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

8.24 In your opinion, which **five** sectors have born the highest costs from abatement measures taken to comply with the Ambient Air Quality Directives?

between 1 and 5 choices

- Innovative industries (all sectors)
- SMEs (all sectors)
- Transport sector
- Transport: Mobility service providers
- Transport: Logistic service providers
- Manufacturing industry (incl. vehicles manufacturers)
- Energy providers
- Agriculture sector
- Waste sector

9 Coherence

In terms of **coherence**, the questionnaire seeks to gather views on the extent to which the Directives are coherent internally (i.e. within each Directive), between each other, as well as with the overarching EU air quality policy approach (including with the national emission limits via Directive 2016/2284 and emission standards established for key pollution sources), other EU legislation (e.g. on transport, energy, agriculture or nature protection) and international commitments.

In the following questions, please keep in mind that Ambient Air Quality Directives refers only to the two Directives 2008/50/EC and 2004/107/EC

9.1 To what extent do you agree or disagree with the following statements?

	Completely agree	Somewhat agree	Neither disagree nor agree	Somewhat disagree	Completely disagree	I don't know
The provisions of Directive 2008/50/EC (ambient air quality and cleaner air for Europe) are internally coherent	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provisions of Directive 2004/107/EC (arsenic, cadmium, mercury, nickel and polycyclic aromatic hydrocarbons in ambient air) are internally coherent	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The Ambient Air Quality Directives successfully complement each other	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The Ambient Air Quality Directives are coherent with the 7th Environmental Action Programme and related environmental acquis	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

9.2 To what extent do the following EU policies and pieces of legislation, aimed at reducing overall emissions, support or hamper the implementation of the Ambient Air Quality Directives?

	Strongly Support	Support	There is no interaction	Hamper	Strongly Hamper	I Don't Know
National Emissions Ceiling Directive	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

9.10 Please explain your answer to the previous question

300 character(s) maximum

The AQD sets, however authorities at national level work in silos. Often the achievement of air quality targets is hampered by policies set at different levels of governance. One example is the strong dieselisation of the EU car fleet caused by fiscal benefits aimed at achieve CO2 targets

10 EU Value Added

In terms of **EU value added**, the questions seek to gather views on the degree to which common EU air quality standards and comparable monitoring, reporting and assessment regimes have enabled Member States to take successful action to improve beyond what would have been possible without EU action. Further, the questions seek to gather views on whether the current distribution of responsibilities between EU, Member States, regional and local levels is a useful one.

Final Open Question

10.4 Do you think that the Directives have been fit for purpose to protect citizens' health and the environment from the harmful effects of air pollution? Why?

2000 character(s) maximum

Yes, the Directives have been fit for purpose to protect citizens' health and the environment from the harmful effects of air pollution, particularly Directive 2008/50/EC because it sets clear and binding objectives (limit values) and defines specific responsibilities for Member States (MS) regarding air quality monitoring, reporting and planning.

The fact that many MSs still exceed air quality standards results from lack of proper implementation and enforcement.

To deliver the Directives' objectives, national, regional and local authorities should:

- produce and implement air quality plans with effective measures (eg LEZ)
- establish coherent tax systems, removing subsidies for polluting activities
- elaborate consistent national plans and implement measures to abate pollutant emissions as required by relevant EU legislation (eg AQD, NECD)
- promote increased public participation and awareness
- enforce relevant source regulations (e.g. IED, EURO standards).

Additional steps should also be taken at EU level to accelerate compliance. In particular, the Commission should:

- use its implementing powers to improve the requirements for air quality plans and the criteria for monitoring, in particular the minimum number and types of stations, data quality and validation, maintenance of sampling points and harmonised modelling and monitoring systems
- timely pursue infringement procedures

The EU and MSs should also develop, adopt and implement ambitious source policies for all sectors to facilitate achievement of the air quality standards.

Following improved compliance with the Directives, a review and revision of the air quality standards would

be required to ensure that they are in line with the most recent scientific evidence. When updating the Directives, particular consideration should be given to the fact that binding limit values and the resulting right to clean air have been the main driver for action against air pollution through court enforcement.
